# Who we are?

## S.D. Infrastructure

is India's leading service provider of construction equipments. We provide Concrete Mixers, Piling Rigs, DTH Machines, and various other equipments. We pride ourselves on the knowledge, skills and expertise of our employees who work together as a team delivering successful projects. Valuing the importance of relationships, we have a collaborative approach that is flexible and can respond quickly to the needs of our clients.

“Our strength lies in our customers and we get 90% of our business as referral from existing customers or loyal repeat customers.”

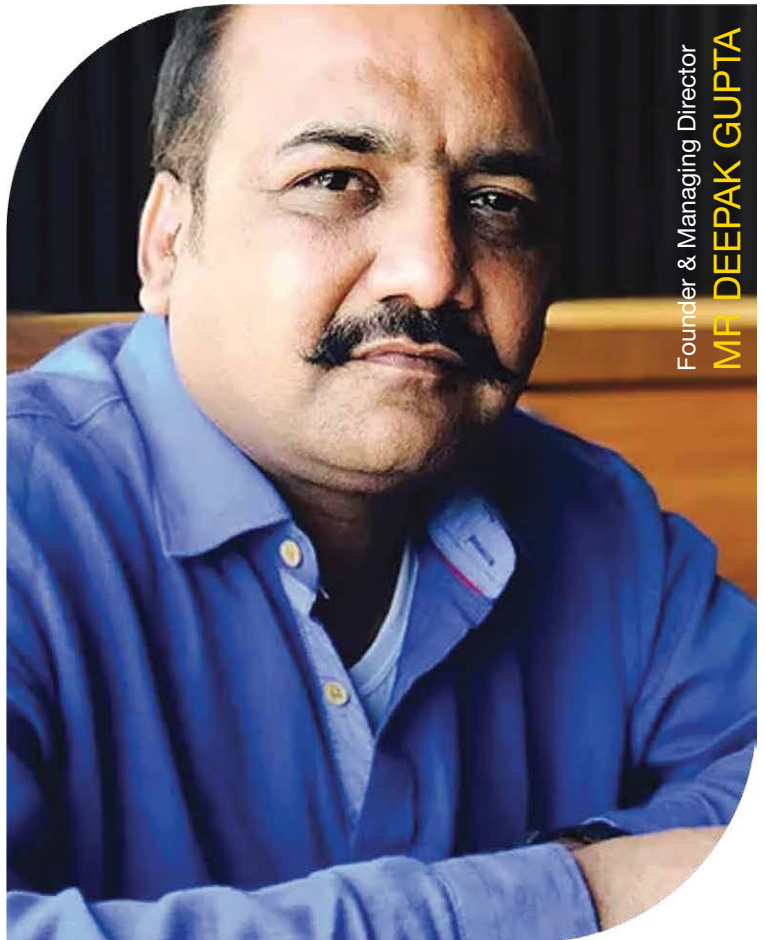

## OUR VISION

“To become a leading construction machinery provider by continuously creating values for our stakeholders.”

## OUR MISSION

“To make concrete relations with all the stakeholders by delivering best in class service.”

*Mr. Deepak Gupta is the Founder and Managing Director of S.D. Infrastructure, Mahalaxmi Filling Station, Mahalaxmi Stone Crusher, GMV Infra, Avi Infra and DG Developers. He has over 25 years of experience in the business of Construction. With his innovative vision and leadership skills he has made S.D. Infrastructure a leading name in Construction Industry*

# Our Team

**W**e believe that our most important assets are the people we employ. Our experienced and professional team include project managers, engineers, supervisors, health, safety and environment officers, surveyors and mechanical tradespeople, backed by a dedicated management and administration team. With a variety of project locations throughout India, our employees have the flexibility to travel and develop their skills and knowledge on the variety of projects we undertake. "Our diverse machinery range enables us to match the most suitable equipment to meet the needs

of your job."

Helping partner companies succeed and creating strategic value is at the core of our daily work of SD Infrastructure. We achieve this with a passionate and dedicated team that spans across several departments and offers a deep expertise altogether in the construction industry.

Each and every one of our team members represent the spirit of our company: driven, committed, and acutely aware of how limitless SD Infrastructure can grow keeping pace with the boom in construction sector thanks to India's growth rate.

# Our Services

# Piling Rig

**P**iling rig is designed to achieve the highest levels of versatility, manoeuvrability, ease of use, transportation, production and reliability. It is configured to operate in various different piling modes. For each drilling mode, it is designed to optimize the performances. However, the modularity of the components makes the conversion among the different kits extremely easy, fast and low-cost.

# DTH Piling Machine

**E**xcavator mounted DTH piling machine is a versatile hydraulic drill rig, mounted on a Kobelco SK210HD Excavator with onboard compressor, suitable for blast hole drilling in mines, can be easily accessible to drill on bench as well as below the ground level, construction works, canal works and solar projects. Whether it be contract drilling, rentals, service, or support, you can always rely on our company to provide training and technical expertise. SD Infrastructure is a fully professional service provider of piling equipments and machines.

With our teams combined knowledge within the piling industry; we can provide a quick, efficient service personally tailored to your project requirements. Our extensive fleet of mini piling rigs and machines, along with a broad range of plant, tools and related equipment make us a true one stop shop. Whether you're a piling contractor, civil engineer, or simply trying to manage a small residential extension, It is our aim to take the hassle out of supplying your site equipment, giving you more time.

# Ajax Fiori Argo

**S**elf Loading Concrete Mixers(SLM)- Ajax Fiori ARGO 2000 and ARGO 4000

The self-loading concrete mixer is a very effective tool when it comes to building sturdy structures in cement. SLM produces concrete on site itself. We provide well-maintained Self Loading Mixers of AJAX FIORI on rent.

**What are the benefits of using Self Loading Concrete Mixers (SLM) on rent?**

- Self Loading Concrete Mixer let you mix all your components at the site of your construction which guarantees no bastardized mixture.

- Skilled operators are provided with the machine which ensures maximum progress and least wastage of materials.
- SLM can easily move to several sites of construction in a very short time.
- No maintenance cost and no depreciation cost incurred.

**We provide SLMs on rent for almost everything like-**

- Metro Rail
- Residential Apartment
- Industrial Foundation
- CC Road
- Canal Lining
- Commercial Buildings
- Windmill Foundation
- Bridges, etc.

# Concrete Plant & Pump

# OUR CLIENTS

We have served thousands of clients all over India.  
Our continuous success is a testimony of their love and commitment to our company.
